

Your Professional Standards Team is Here to Support You

The Manitoba Real Estate Association (MREA) provides guidance on legislation, regulation, and *The REALTOR® Code*. We are here to support our members to understand and implement the various elements of *The Real Estate Services Act* (RESA) and its regulation, as well as to answer questions on *The Condominium Act* and federal legislation, including The Financial Transactions and Reports Analysis Centre of Canada (FINTRAC) and Canada's anti-spam legislation (CASL). The impact of legislation and regulation related to our members' business of selling real estate is often complex, based on specific situations, and requires professional interpretation assistance.

With the enactment of RESA, MREA understands there is a need for support for its members. MREA increased its professional standards staff compliment to ensure we are here to help answer your inquiries, as well as continue to assist in the administration of the professional standards complaint and investigative processes.
